Nr. crt	Articol	Revistă	Referință bibliografică
1	On sofic actions and equivalence relations	Journal of Functional Analysis	Vol 261, Iss 9, 2011, 2461-2485
2	Product between ultrafilters and applications to the Connes' Embedding Problem (with Valerio Capraro)	Journal of Operator Theory	Vol 68, Iss 1, 2012, 165-172
3	A convex structure on sofic embeddings	Ergodic Theory and Dynamical Systems	Vol 34, Iss 4, 2014, 1343-1352
4	All automorphisms of the universal sofic group are class-preserving	Revue Roumaine de Mathematiques Pures et Appliquees, Special Issue	Vol 59, Iss 2, 2014, 255-263
5	Almost commuting permutations are near commuting permutations (with Goulmara Arzhantseva)	Journal of Functional Analysis	Vol 269, Iss 3, 2015, 745-757
6	Linear sofic groups and algebras (with Goulmara Arzhantseva)	Transactions of the American Mathematical Society	Published electronically: April 8, 2016
7	Convex structures revisited	Ergodic Theory and Dynamical Systems	Vol 36, Iss 5, 2016, 1596-1615
8	A generalisation to Birkhoff - von Neumann theorem (with Florin Rădulescu)	Advances in Mathematics	Vol 308, 2017, Pages 836-858
9	Unitaries in ultraproduct of matrices	Journal of Operator Theory	Vol 78(2), May 2016
10	Two special subgroups of the universal sofic group (with Matteo Cavaleri and Radu Munteanu)		arXiv:1704.00814
11	Constraint metric approximations and equations in groups (with Goulmara Arzhantseva)		arXiv:1708.00691
